

# ARAM 2006 – ROME DECEMBER 4-6

December 4<sup>th</sup>

Paglietti	9.00-9.30	Participant registration and welcome
	9.30-10.40	Italian and european authority and guests
U.E. Member	10.40-11.00	LIFE Environment Programme like Community funding instrument
	<b>Coffee Break</b>	

## Session 1 – Topics: Compensation for damages due to asbestos and legal aspect; work of asbestos victim groups; municipalities' role

Battenstein	11.30-11.50	Lack of compensation of asbestosis, asbestos related lung cancer and mesothelioma in Germany
Rodríguez Sanz de Galdeano	11.50-12.10	Asbestos damages compensation in Europe, Spain and France
D'Ercole	12.10-12.30	Il ruolo del sindacato in Italia ed in Europa
Virgili	12.30-12.50	L'importanza delle associazioni di tutela degli esposti ad amianto
Cantiani	12.50-13.10	Le azioni del sindacato a tutela dei lavoratori
De Carlo	13.10-13.30	Canadian auto workers and the fight against asbestos
Fonda	13.30-13.40	The case on 'Associazione Esposti Amianto in Friuli Venezia Giulia Region
	<b>Lunch</b>	

## Session 2 – Topics: Diagnosis of asbestos related damage; medical treatments; medical research; epidemiological studies

Tisba	14.30-14.50	Il trattamento curativo del mesotelioma pleurico: aspetti chirurgici
Nicita	14.50-15.10	Asbestos exposure in agriculture
Franko	15.10-15.30	Asbestosis and GSTM1 and GSTT1 polymorphisms
Cardile	15.30-15.50	In vitro assessment of fibrous minerals on cellular systems
Mastrangelo	15.50-16.10	Formulation of a screening policy regarding early detection of lung cancer in asbestos workers
Marinaccio	16.10-16.30	Malignant mesothelioma surveillance in Italy: incidence and asbestos exposure by Italian register
	<b>Coffee Break</b>	
Musti	16.50-17.10	Tremolite:environmental exposure in Basilicata region
Bianchi	17.10-17.30	Malignant mesothelioma in Leghorn, Italy
Dodik Fikfak	17.30-17.50	Predicted incidence of mesothelioma in Slovenia
Bellis	17.50-18.10	Critical elements in the diagnosis of diseases caused by asbestos

**December 5<sup>th</sup>**

<b>Session 2 – Topics: Diagnosis of asbestos related damage; medical treatments; medical research; epidemiological studies</b>		
Silvestri	9.00-9.20	The analysis of mesothelioma cases without asbestos occupational exposure as a contribution for the risk assessment within the general population in Tuscany
Bianchi	9.20-9.40	Malignant mesothelioma in Monfalcone, Italy
Barone Adesi	9.40-10.00	Trends of pleural cancer mortality in a cohort of asbestos workers after long latency: evaluation of the possible role of asbestos clearance
<b>Session 3 – Topics: Workers protection in asbestos remediation activities; watchdog bodies' role and experiences</b>		
Verardo	10.00-10.20	Le azioni di bonifica della presenza di amianto: tutela della persona e dell'ambiente attraverso una coerente preparazione professionale dell'operatore
Cortese	10.20-10.40	Restitution procedures in the course of friable asbestos reclamation: experience in a thermo-electric station
Merler	10.40-11.00	Lung fibre burden among italian subjects occupationally exposed to asbestos suffering from a mesothelioma
	<b>Coffee break</b>	
Jones	11.30-11.50	An assessment of risks due to asbestos-containing material on tracks
Silvestri	11.50-12.10	Job-exposure matrices for cohort studies: reconstructing past asbestos exposure in a railway stock production industry
<b>Session 4 – Topics: Assessment and mapping of large asbestos contaminated areas; fibrous mineral in natural environments: prevention and eco- compatibility</b>		
Kovalevskiy	12.10-12.30	Mineral fibre measurement in the urban environment
Papacchini	12.50-13.10	Inquinamento ambientale da fibre di amianto aerodisperso: messa a punto di una mappa di diffusione delle fibre
Jones	13.10-13.30	Asbestos as far as the eye can see
	<b>Lunch</b>	
Bruni	14.30-14.50	Nature and extent of the exposure to fibrous amphiboles in Biancavilla
Germano	14.50-15.10	Underground Reclaiming From Asbestos. A Case Study: Eternit Industrial Area In Bagnoli (Naples)
Marescotti	15.10-15.30	Asbestos fibres release from serpentinites during quarry operations: case studies from eastern ligurian ophiolites
Brancia	15.30-15.50	Il rischio da rocce amiantifere nell'ambiente naturale: correlazione tra grado di erosione e dispersione a distanza
Damiani	15.50-16.10	Distribuzione orizzontale e verticale di particolato aerodisperso nel sito di interesse nazionale di Biancavilla Etnea
	<b>Coffee break</b>	
Bancomina	16.30-16.50	Valutazione dello stato di conservazione di materiali contenenti amianto in matrice compatta
Galiffa	16.50-17.10	La mappatura dell'amianto a livello nazionale

Giacomelli	17.10-17.30	Naturally occurring asbestos mapping project: the experience of Regione Piemonte
Gaggero	17.30-17.50	Structural and microstructural control on chrysotile distribution in serpentinites from eastern ligurian ophiolites
Gualtieri	17.50-18.10	Asbestos monitoring in civil and industrial environments of selected Italian sites. The case of the ceramic factory

## December 6<sup>th</sup>

<b>Session 5 – Topics: Asbestos removal or management: techniques and case studies</b>		
Kropiunik	9.00-9.20	Risk assessment tools for asbestos containing materials
Kropiunik	9.20-9.40	Case study: asbestos removal at the Vienna International Centre
Nguyen Ba	9.40-10.00	Current status of asbestos pollution at fibro-cement roofing factories in Vietnam and pollution control measures
Colman	10.00-10.20	ESB experience of remediating asbestos contaminated land
Foltyn	10.20-10.40	Examination of physical properties of soft asbestos saturated with preparation for the asbestos fibres suppression (latter on referred to as ASF preparation)
Addison	10.40-11.00	The release of dispersed asbestos from soil
	<b>Coffee break</b>	
Nguyen Ba	11.30-11.50	Mitigation of asbestos impact in Vietnam: the lesson learned
Malinconico	11.50-12.10	Filtering of asbestos fibres from hazardous waste landfills leachate (FALL Project): a first preliminary balance
Oberta	12.10-12.30	Risk assessment and remediation prioritization for asbestos-containing materials (Part 1)
Brennan	12.30-12.50	Risk assessment and remediation prioritization for asbestos-containing materials (Part 2)
Zamengo	12.50-13.10	A microwave-assisted pilot plant for pre-treatment of hazardous waste landfill leachate: the prototype of the LIFE-FALL Project
Boer	13.10-13.30	The combination of the mechanical separator and the extraction cleaner can process the complete asbestoscontaining waste-stream and make it suitable for reuse.
	<b>Lunch</b>	

<b>Session 6 – Topics: Management and treatment of asbestos waste: european and italian legislation and applications</b>		
Pecchini	14.30-14.50	Valutazione analitica del rifiuto di cemento amianto dopo trattamento di inertizzazione con processo pirolitico
Gualtieri	14.50-15.10	Understanding the high temperature reaction sequence during the thermal treatment of cement-asbestos slates
Paglietti	15.10-15.30	Airborne particulate matter pollution: preliminary observations on vertical distribution variability of asbestiform particles
Bergamini	15.30-15.45	Il risanamento ambientale della miniera di Balangero e Corio: approccio progettuale e principali interventi
Clarelli	15.45-16.00	Experiences and operating modalities in reclamation works of asbestos-containing materials
		<b>Final document discussion and submission - Conference conclusions</b>
<b>Session 7 – Posters</b>		
Belluso		Indirect assessment of breathable inorganic fibres by sentinel animal of Piedmont areas
Bianchi		Asbestos traffic in the Mediterranean region: the port of Trieste
Capella		Monitoring of mineral fibres background in the Biancavilla area by OM and SEM-EDS investigations of animal lung
Musti		A spatial case-control study of the environmental asbestos exposure on malignant mesothelioma in Bari, Italy
Damian		I piani regionali amianto: stato di avanzamento
De Simone		Valutazione dell'efficienza dei portafiltri nei campionamenti di aerodisperso
Martines		Cases studies of asbestos contaminated sites of national interest
Tinazzi		Valutazione dei parametri che influenzano il conteggio delle fibre d'amianto aerodisperse mediante microscopia elettronica a scansione

During all the sessions, posters will be exposed in the conference's room
